Amendment 6

(Tovo item 2 on flagged list)

Question 1

6. To ensure that the Land Development Codes and permitting process are streamlined to the greatest extent possible upon adoption of any revision to the Land Development Code, regulatory requirements related to certain key strategies of the adopted Water Forward, Austin's 100-year integrated water resource plan, should be codified and implemented as part of this comprehensive land development code revision process. These strategies should include at a minimum: water benchmarking, dual plumbing, landscape transformation, and alternative water.
